I am writtin9 as.a citizen to urge you not to allow wal-mart the rights to open their flrst ILC in utah. Letting wal-mart have these libreties would cause catastrophic consequences. Wal-mart has al ready destroyed the retail busness in the u.s. and as such a large cor-eration They should not have the power to step further up. The potential of a retail giant like wal-Mart entering the banking business violates the restriction of mixing commerce and banking. -Mart's bank would wreak havoc on the economy as well and creates' unfair competition for other ILC'S. As well wal-marts previous shifty an unethical business practices is proof that wal-mart only has one thing in mind...linning the wallets of their CEO'S.
